

Random Variables

$$y = 5x + 2$$

$X \rightarrow$ function $\rightarrow$ Values

or

Process or Experiments.

$$X = \begin{cases} H & \text{Tossing a coin} \\ T & 1 \end{cases}$$

$$X = \begin{cases} 1 \\ 2 \\ 3 \\ 4 \\ 5 \\ 6 \end{cases}$$

Rolling a die

Random Variable

Discrete Random

Eg:- Tossing a coin?
Rolling a dice

Continuous Random

Eg:- Tom now how many
Inches it rains.
