

80-20

20% of data points $\rightarrow$ 80% Impact

IPL
 Eg ① $\rightarrow$ 20% of the team is responsible for winning 80% match

② 80% of wealth is distributed with 20% of the total population

③ 80% of oil is with 20% of the nation.

In statistics, a **power law** is a functional relationship between two quantities, where a relative change in one quantity results in a relative change in the other quantity proportional to the change raised to a constant **exponent**: one quantity varies as a power of another. The change is independent of the initial size of those quantities.

96% of IRAN $\rightarrow$ 80% of oil
 IRAN

i) normal

Eg.:-

① 80% of Entire Project is done by 20% of Team

$$100 \rightarrow 25-30 \rightarrow 80\% \rightarrow$$
