

Types of probability distributions

i) Bernoulli Distribution $\rightarrow 0, 1$

Binary data $\rightarrow$ pmf $\leftarrow$ Discrete Random Variable

*** ii) Binomial distribution $\rightarrow$ pmf

*** iii) Normal / Gaussian Distribution $\rightarrow$ pdf $\rightarrow$ Cont Random Variable

* iv) Poisson Distribution $\rightarrow$ pmf

v) Log Normal Distribution (pdf)

vi) Uniform Distribution (pmf)

vii) Pareto law 80-20% $\rightarrow$ Rule

Ex :- House Price Predict

Size of House	No. of Rooms	Location	Floor	Price
$\downarrow$	$\downarrow$	$\downarrow$	$\downarrow$	$\downarrow$
Continuous	Discrete	x	Discrete	Continuous

[1/p > 0/p]

House Price
